## DRG50 Industrial Dryer

### DRG50

Capacity (Wet)	22.5kg
Volume	528 L
Drum Diameter	939 mm
Net Weight (Gas and Electric)	247 kg
Water (C.A.R.E)	1x Standard 19mm Cold Washing Machine Water Tap at 1.6m off Floor
Electricity	230 Volt – 50 hZ
Electrical Recommendations	Single Phase Standard GPO, 10 Amp Individual Circuit Required
Gas Connection	12.7 mm Gas Isolating Cock
Gas Heating	137 MJ/h
Gas Pressure	Min = 1.13kPa Rec = 1.62kPa Max = 2.61kPa
Flue Diameter	Ø 203 mm
Exhaust Flow Rate (50khz)	354 L/s
Flue Termination	2 x 90° Bends terminating 500mm from roof line – No Mesh or Chinaman's Hats

**\*Please allow a 25mm gap on sides and a 100mm gap on top if dryer is to be built into an enclosed space.**
